## Content

### Thematic focus I

#### Optimal limitations of the risk of liability cases for representatives / the central office

**Concepts on  
limitation of risk  
liability cases**

- > Liability-related guarantor status – BGH (Federal Court of Justice) judgement of 17 Juli 2009 on the responsibility of representatives – „Siemens-/Neubürger“- judgement of 10th december 2013 on the compliance system
- > Limitation of the risk of liability cases for AML officers and representatives of the central office –Minimum requirements to the internal organisational measures
- > How do risk controlling, compliance, AML officers and internal audit work together ?
- > 5 steps for the optimal risk limitation of representatives

## Thematic focus II

### Tasks, rights and obligation of the central office – Safe realization of the § 27 PrüfbV duty list

#### Competence centre central office

- > Which requirements have to be obeyed by the AML officer ?
  - > Competence centre AML officer: tasks, rights and obligations of the central office (AML officer and representative for economic crime)
  - > Case studies and practical cases: establishment of appropriate safety measures, development of action strategies, emergency and escalation procedures
- > Risk management, control measures and audit procedures of the central office
- > Suspicion reports and behavior in the case of suspicion

#### Tips for implementation

*Implementation of the S&P Checklist on the duty criteria according to § 21 Audit Report Regulation*

## Thematic focus III

### Due diligence obligations and action strategies of the AML officer in practice

#### Know Your Customer

- > Overview of the due diligence obligations – Interpretation and application notes of the German Banking Industry Committee for prevention money laundering, terrorist financing and "other offenses" (AuADK)
  - > Target-oriented implementation of the due diligence obligations by the AML officer
  - > Identification procedures
  - > Recognition and monitoring of politically exposed people and high-risk customers
- > Target-oriented embargo and sanction monitoring – What do I have to take into account?

#### Tips for implementation

*+S&P work instructions on the defence of money laundering and economic crime*

## Thematic focus IV

In which areas did serious acts of economic crime take place in the past?

### Recognizing economic crime

- > Characteristics, motives and typical profiles of offenders
- > Action strategies for unusual and conspicuous business relationships or transactions
- > Special measures against fraudulent activities or any other criminal offenses
- > Fight against fraud according to § 25h KWG: emergency response, preventive measures and immediate measures
- > Application notes, case studies and practical experience

#### Tips for implementation

+ *S&P guideline on the fight against fraud and the defence of any other criminal offences*

+ *S&P Checklist on the prevention of external and internal offenses*

## Thematic focus V

Test security at the preparation / update of the risk analysis – organization of the system of registration of suspicion cases

### Risk / hazard analysis

- > 4th EU Money Laundering Directive – Latest supervisory and audit relevant requirements
- > Development, structure and content of a risk analysis with the focus on money laundering and economic crime
- > Risk inventory and audit-proof classification of risks
- > New instructions of interpretation and implementation on the system of registration of suspicion cases
- > When and how to report suspicions?
- > Report of suspicions – Interfaces to investigating authorities

#### Tips for implementation

+ *S&P guideline on the actualisation and update of a risk analysis*

+ *S&P Checklist for a legally compliant suspicion*

## Experts & departments

### Risk management and Compliance department

Mr **Achim Schulz** counsels medium-sized companies and banks for 22 years. His main areas of expertise are in the fields of plant construction, automotive, banks, health care, trade and non-profit organisations. He advises companies on the implementation of risk management and compliance systems.
